🎓 EDUCATION

B.Tech Computer Science Engineering (Specialization - Data Science), *NIIT University*
2020 – present | Neemrana, India
CGPA : 8.8

Senior Secondary School,
Sant Gyaneshwar Model School
2019 – 2020 | Alipur, India
Percentage : 76%

Secondary School,
D.A.V. Public School, Sector-49
2017 – 2018 | Faridabad, India
Percentage : 78%

🏅 ACHIVEMENTS

Smart India Hackathon 2022 ⧉
(Qualified for Finale by Govt. of India)

Flipkart Runway - Season 2 ⧉
(Reached till 3rd round)

🗐 CERTIFICATION

Data Structures in C++, *Coding Ninjas*

The Complete Web Development Bootcamp, *Udemy (Dr. Angela Yu)*

🏠 RESPONSIBILITIES

siNUsoid Tech-Fest,
Digital Design Team Lead

Entente-2021 (International conference at NIIT University),
Digital Coordinator

👤 B.TECH COMPUTER SCIENCE ENGINEERING STUDENT

Dedicated engineer infusing creativity into diverse pursuits, I present a versatile skill array with strong command in Data Structures & Algorithms, MERN Stack, and a curiosity for emerging domains like Generative AI and LLM-based projects

📁 PROJECTS

NU GrubGrab, *[MongoDB][ExpressJS][ReactJS][NodeJS]* ⧉
- Common Food Ordering interface for different eating joints within University
- Roadmap includes order tracking, payment gateway, and admin operations for managing categories, products, and orders
- Highlights my skills in full-stack development, user authentication, and collaborative teamwork

Resume Filtration App, *[Qdrant][Python Flask][Docker]* ⧉
- Web Application for Efficient Resume Filtering and Management
- Developed the app's functionality to upload resumes for similarity comparison, aiding efficient candidate evaluation
- Constructed a scoring mechanism to quantify the similarity between uploaded resumes, providing valuable insights

PDF-QueryMaster, *[Python] [NLP] [Language Models]* ⧉
- Python Application for Natural Language PDF Document Interaction
- Demonstrates bridging language understanding and document analysis for efficient PDF insights extraction

Uber Data Analysis, *[R Script]* ⧉
- Analyzed trip patterns, demand distribution, and peak hours
- Utilized publicly available Kaggle dataset for comprehensive exploration
- Employed data cleaning, transformation, and visualization techniques

💼 PROFESSIONAL EXPERIENCE

The Sparks Foundation, *Web Development Intern* ⧉
Jan 2022 – Feb 2022
- Developed "Little Wings" donation website for Orphanages
- Integrated Razorpay payment gateway
- Acquired foundational knowledge in web development
- Recognized with a Silver Badge and a celebratory Letter of Recommendation

Coding Ninjas, *Ninja Entrepreneur* ⧉
Jul 2021 – Jan 2022
- Attained the esteemed Ninja Entrepreneur - Gold Pass Certification credential for exceptional leadership skills and self starter capabilities
- Demonstrated entrepreneurial prowess and excellence in business management
- Acquired valuable insights into strategic planning, innovation, and market dynamics

🧠 SKILLS

`CPP` `Python` `R` `Data Structures & Algorithm` `OOP`
`LLM` `LangChain` `Flask` `Docker` `SQL` `NoSQL`
`MongoDB` `ExpressJS` `ReactJS` `NodeJS` `Figma`
